

CU Physics Department Colloquium

Monday, April 6, 2009 4:10 PM 428 Pupin Hall

"Inflation after WMAP"

I will review the robust predictions of inflation and confront them with the most recent results on the cosmic microwave background fluctuations measurements.

Viatcheslav Mukhanov

Ludwig-Maximilians University of Munich

Hosted by Boris Altshuler, Meet the Speaker at 3:30 pm in 705 Pupin
