

RESEARCH ASSISTANT POSITIONS under the
direction of Elke Weber and Eric Johnson

1) Help with a study of risk taking in children and adolescents in collaboration with 'The School' at Columbia. We are looking for a research assistant to help us with data collection and analysis. This would be a good opportunity for someone interested in cognitive and developmental psychology.

2) General RA: help us with data collection, analyses, the development and implementation of experiments, as well as some light administrative work. This would be a good opportunity for someone looking for general experience in a research lab.

3) Computer Programmer: looking for someone with computer skills to help us with programming and database management and to strengthen our online data collection and extraction.

These positions:

* involve working for business school marketing and psychology professors and post-docs, and would be a good opportunity for someone interested in decision making, psychology, behavioral economics and marketing, as well as computer science.

* are perfect for someone transitioning between undergraduate and graduate school.

* have flexible hours, but we do ask that you are available for a minimum of 8 hours per week.

The positions are initially unpaid, with the opportunity to advance to paid work, though compensation will be considered for outstanding applicants.

If interested, please send CV and availability to:
