Broadway / W170 St.

This innovative program pairs the Columbia University Department of Public safety with civic-minded area business to provide emergency assistance to all members of our community. CU Public Safety has registered and screened over 120 businesses proximal to the Morningside, Medical Center & Manhattanville campuses. In the event of an emergency or threat, these merchants agree to allow the community member to wait in their establishments and will notify Public Safety and the NYPD. Participating establishments prominently display the distinctive Safe Haven logo in their windows. For a list of all Safe Haven Locations sorted by campus, please visit the CU Public Safety website:
