In popular culture, one type of love—passionate sexual romance—is prized above all. But there are many kinds of love that give shape and meaning to life. This film explores real love stories—love in marriage, family, community, science, forgiveness, the search for the divine, friendship, and even war. Actor, playwright, author Anna Deavere Smith is host of the special.

**The CSSR Seminar Series is supported by funds from the Fetzer Institute, the Ford Foundation, the Earth Institute, and Friends of the CSSR.**

All seminars are free and open to the public. Refreshments will be served.
