COMPREHENSIVE EXAMINATIONS

EVALUATION FORM

Examiners: Please print this form, fill it out, and return it to the Doctoral Office.

The comprehensive exam, which aims to help students synthesize and integrate their three methods courses, is taken in two stages: first a written exam, then an oral follow-up exam conducted by either two or three faculty members from the appropriate method area. A single evaluation of "pass" or "fail" covers both written and oral phases of the examination.

Student's Name: _____

Examining Committee: _____ (Chair)
