Announcements

1. Syllabus update: We are a tad behind the schedule as written in the syllabus. We will spend this Wednesday and next Monday on reactions of carboxylic acid derivatives (Ch. 19.1-7), and the rest of next week on the chemistry of ester enolates (the remainder of Ch. 19). We will spend the rest of the semester on some biochemistry ... from an organic chemist's perspective (of course!).
2. Have a very Happy Thanksgiving!
