## My Spring Break

I didn't go anywhere this spring break. I only stayed at home and rested. At first, I thought this would be very boring, but I realized that everyday was very fulfilling. During the break, I went to New York City to meet with my friend. I also came into the city for dance class. Other than that, I stayed at home and watched TV, or sometimes I went out to dinner with my mother. Even though this spring break, I didn't go anywhere, but I learnt to snowboard. I learnt to use the snowboard. This Thursday a bunch of my friend went snowboarding together. We left early in the morning. We were at the mountain for the whole day. When I came home, I was really tired. All my muscles were sore, I couldn't move them. The weekend before school started, I really wanted the break to be longer so I can play longer. This spring break, I had a good time!
