

Design Checkpoint due April 11

- The “Design Checkpoint” is April 11, 2002.
- I will meet with each team on that day probably after 6PM. TA will set up the times.
- Each team should make a 20minutes presentation on the information I asked for below.
- In addition, each team should provide a 5 page design document
- that covers the following (by **April 15 (extended)** , 2002, 5 PM to TA in HTML or MS-Word):
 1. Project Goals
 2. System Software Model
 - Algorithms, data flow diagrams, APIs
 3. Protocol Description
 - Protocol operations, state machines, data main structures, messages
 4. How is doing what (team member’s tasks)
 5. Timeline to demo-day
