

Abstract Requirements and Suggestions for EHS 6300

Requirements:

1. 300-500 words

If the word limit is not observed you will automatically receive a 1 out of 3.

2. Clearly stated objectives and examples
3. Content
4. Relevance
5. Summary

Suggestions: These are not requirements! Only suggestions that may either help you to meet the requirements or help me to understand what you've written.

1. Please include the presenter question as the title of your abstract
2. Make sure to fully answer the question provided by the presenter, i.e. address every question and sub-question. Make sure to back it up with at least one or two examples/case studies with real data (this is the info you can get from the websites).
3. Summarize the data you've provided
4. Draw conclusions based on the case studies you've provided, i.e. synthesize the material
5. Future Recommendations

What kind of public policy would you initiate based on the findings you have described and/or what sorts of research should be conducted to follow-up on the results that you report.
