

Agostino Capponi

CONTACT INFORMATION	<i>Associate Professor (with tenure)</i> Department of Industrial Engineering and Operations Research Columbia University 535G S. W. Mudd Building New York NY 10027, USA	<i>Voice:</i> +1(212) 854-4334 <i>Email:</i> ac3827@columbia.edu http://www.columbia.edu/~ac3827
EDUCATION	California Institute of Technology , Department of Computing & Mathematical Sciences, Pasadena, California, USA Ph.D. in Computer Science, June 2009 <i>Title: Credit Risk and Non-linear Filtering: Computational Aspects and Empirical Evidence</i> Ph.D. Advisor: Professor Jakša Cvitanić Minor in Applied & Computational Mathematics, GPA 4.0/4.0, March 2007 M.S., GPA 4.0/4.0, June 2006 University of Rome “La Sapienza” , Department of Information Sciences, Rome, Italy. Master Degree, <i>Magna cum Laude</i> , December 2001.	
PROFESSIONAL EXPERIENCE	<i>Associate Professor (with tenure)</i> Industrial Engineering and Operations Research Department Columbia University , New York, NY. <i>Tenure-Track Assistant Professor</i> Industrial Engineering and Operations Research Department Columbia University , New York, NY. <i>Consultant</i> Office of the Chief Economist U.S. Commodity Futures Trading Commission , Washington D.C. <i>Visiting Scholar</i> Federal Reserve Board of Governors , Washington D.C. <i>Tenure-Track Assistant Professor</i> Department of Applied Mathematics and Statistics Johns Hopkins University , Baltimore, MD. <i>Tenure-Track Assistant Professor</i> Department of Industrial Engineering Purdue University , West Lafayette, IN. <i>Visiting Assistant Professor</i> Swiss Institute of Finance École Polytechnique Fédérale de Lausanne , Lausanne, Switzerland. <i>Full-Time Associate, Derivatives Analysis</i> Goldman Sachs International , London, U.K. <i>Instructor</i> Department of Industrial and Systems Engineering University of Southern California , Los Angeles, California.	Jan. 2019 – present Aug. 2014 – Dec. 2018 Feb. 2016 – present March. 2016 – present Aug. 2013 – August 2014 Aug. 2010 – July 2013 June 2011 – July 2011 Aug. 2009 – Aug. 2010 May 2009 – July 2009

PATENTS,
GRANTS, HONORS, **Honors and Awards**
& AWARDS

- **Luohan Academy.** Academic Fellow, 2021-present.
- **Global Digital Economy (GDE) Forum.** Academic Council Member, 2021-present.
- **Fintech Initiative at Cornell.** External Research Fellow, 2021-present.
- **Crypto and Blockchain Economics Research Forum.** Fellow, 2020-present.
- **Columbia-IBM Center for Blockchain & Data Transparency: Special COVID-19 Research Award.** Transparent Food Supply Chain Systems: Towards increasing Efficiency and Sustainability under Uncertainty, June 2020-June 2021 (\$100,000).
- **JP Morgan AI Faculty Research Award.** Robo-Advising as a Symbiotic Human-Machine System, 2019-2020 (\$150,000).
- **NSF CAREER Award.** Systemic Risk and Strategic Formation in Stochastic Networks, no. 1752326, 2018-2023 (\$500,000).
- **Bar-Ilan Prize.** General Prize for Research in Financial Mathematics, 2016.
- **Honorable Mention, SIFI (Systemic Important Financial Institutions Challenge).** MIT Center for Finance and Policy and the Harvard Crowd Innovation Laboratory, 2016. (\$500).

Research Grants

- **Ripple University Blockchain Research Initiative.** Sole PI. Decentralized Exchanges and Information Leakage in Blockchain, 2021 (\$100,000).
- **Global Risk Institute.** Sole PI. Mortgage Forbearance, Loan Performance, and Implications for Security Markets, 2020 (\$20,587).
- **U.S. Department of Energy's Advanced Research Projects Agency-Energy (ARPA-E).** CO-PI (joint with D. Bienstock, Y. Dvorkin, G. Iyengar, and M. Chertkov), Risk-Aware Power System Control, Dispatch and Market Incentives, 2020. (\$2,061,355)
- **Clearpool Group.** Sole PI. Market Impact Modelling on Active/Aggressive Trading and Passive Limit Order Placement, 2018-2019 (\$149,241).
- **NSF DMS-1716145.** Sole PI. Mathematics and Control of Systemic and High-Frequency Trading Risks, 2017-2020 (\$225,189).
- **DARPA.** Sole PI. A Mathematical Framework for Complex Human-Machine Interaction Systems, 2016-2017 (\$175,000).
- **Global Risk Institute.** Sole PI. Centralized Trading: Collateral, Risk Shifting, and Competition, 2016-2018. (\$119,934).
- **OCP Group.** CO-PI (joint with G. Iyengar and J. Sethuraman), 2015-2017 (\$285,269). Extended for the years 2018-2019.
- **Institute for New Economic Thinking.** Sole PI. Dynamic Contagion Mechanisms in Financial Networks, 2013-2014. (\$75,000). Acceptance rate: 8%.
- **IFM Grant.** Sole PI. Institute for Financial Markets, 2012. Selected among the top five by the Advisory Committee of the Clearing Corporation Foundation (\$15,000).
- **Marie Curie Fellowship.** European Commission, 2003-2004 (€48,000).

Conference Grants

- **2022.** Lead PI (joint with F. Biagini, S. Jaimungal, and S. Sturm). Gene Golub SIAM Summer School: “Financial Analytics: Networks, Learning, and High Performance Computing”. Awarded amount: \$123,760.
- **2021.** CO-PI (joint with C. Frei, R. Sircar, A. Papapantoleon, and T. Zariphopoulou). Workshop: “Modeling, Learning and Understanding: Modern Challenges between Financial Mathematics, Financial Technology and Financial Economics”. Funded via a competitive process by the Banff International Research Station.

Patents

- **World Patent.** A. Capponi. “Partition process, tracking methods and systems using it”. Publication info: WO2005059589-2005-06-30. Publication date: 06/30/2005.

PUBLICATIONS

Selected Publications

- “The Collateral Rule: Evidence from the Credit Default Swap Market”. *Journal of Monetary Economics*. Forthcoming (with W.A. Cheng, R. Haynes, and S. Giglio)
- “Bail-ins and Bail-outs: Incentives, Connectivity, and Systemic Stability”. Media Coverage: VoX. *Journal of Political Economy*. Forthcoming. (with B. Bernard and J. Stiglitz)
- “Personalized Robo-Advising: Enhancing Investment through Client Interactions”. *Management Science*. Forthcoming. (with S. Olafsson and T. Zariphopoulou)
- “Robo-advising: Learning Investors’ Risk Preferences via Portfolio Choices”. Invited Paper. *Journal of Financial Econometrics* 19(2), 369–392, 2021. (with H. Alsabah, O.R. Lacedelli, and M. Stern)
- “Intraday Market Making with Overnight Inventory Costs”. *Journal of Financial Markets* 50, 100564, 2020. (**Lead Article**) (with T. Adrian, M. Fleming, E. Vogt and H. Zhang)
- “Swing Pricing for Mutual Funds : Breaking the Feedback Loop Between Fire Sales and Fund Runs”. *Management Science* 66(8), 3581–3602, 2020. (with P. Glasserman and M. Weber)
- “Arbitrage-free Bilateral Counterparty Risk Valuation under Collateralization and Application to Credit Default Swaps”. *Mathematical Finance*, 24(1), pp. 125-146, 2014. Short version appeared in *Risk*, pp. 85-90, 2010. (with D. Brigo and A. Pallavicini)

Full List of Publications

- “Power Forward Performance in Semimartingale Markets with Stochastic Integrated Factors”. *Mathematics of Operations Research*. Forthcoming. (with L. Bo and C. Zhou)
- “Systemic Risk Driven Portfolio Selection”. *Operations Research*. Forthcoming. (with A. Rubtsov)
- “A Theory of Collateral Requirements for Central Counterparties”. Forthcoming in *Management Science*. (with J. Wang and H. Zhang). Media Coverage: Oxford Business Law Blog.
- “Market Efficient Portfolios in a Systemic Economy”. *Operations Research*. Forthcoming. (with K. Awiszus and S. Weber)
- “Counterparty Risk in Over-the-Counter Markets”. *Journal of Financial and Quantitative Analysis*. Forthcoming. Earlier version appeared in Finance and Economics Discussion Series, Board of Governors of the Federal Reserve System. DOI: <https://doi.org/10.17016/FEDS.2017.083r1>
- “Multiregional Oligopoly with Capacity Constraints”. *Management Science* 67(8), 4643-5300, 2021 (with H. Alsabah, B. Bernard, G. Iyengar, and J. Sethuraman)
- Runner-up, INFORMS Doing Good with Good OR Best Paper 2019.**
- “Robust XVA”. *Mathematical Finance* 30 (3),738-781, 2020. (with M. Bichuch and S. Sturm).
- “Firm Capital Dynamics in Centrally Cleared Markets”. *Mathematical Finance* 30(2), 664-701, 2020. (with W.A. Cheng and S. Rajan). Media Coverage: Bloomberg, Thomson Reuter, American Banker.

“A Dynamic Network Model of Interbank Lending: Systemic Risk and Liquidity Provisioning”. *Mathematics of Operations Research* 45(3), 1127–1152, 2020. (with D.D. Yao and X. Sun). **Finalist of the 2017 INFORMS Finance Services Student best paper competition**

“Credit Portfolio with Decaying Contagion Intensities”. *Mathematical Finance* 29(1), 137-173, 2019. (with L. Bo and P.C. Chen)

“Portfolio Choice with Market-Credit Risk Dependencies”. *SIAM Journal on Control and Optimization* 56(4), 3050-3091, 2018. (with L. Bo)

“Clearinghouse Collateral Requirements”. *Operations Research* 66(6), 1542-1558, 2018. (with W.A. Cheng)

“Risk Sensitive Asset Management and Cascading Defaults”. *Mathematics of Operations Research* (**Featured Article**) 43(1), 1-28, 2018. (with J. Birge and L. Bo).
Media Coverage: Chicago Booth Review

“Arbitrage-Free XVA”. *Mathematical Finance* 28(2), pp. 582-620, 2018. (with M. Bichuch and S. Sturm)

“Dynamic Investment and Counterparty Risk”. *Applied Mathematics and Optimization* 77(1), 1-45, 2018. (with L. Bo)

“Optimal Investment under Information Driven Contagious Distress”. *SIAM Journal on Control and Optimization* 55(2), pp. 1020-1068, 2017. (with L. Bo)

“Optimal Credit Investment with Borrowing Costs”. *Mathematics of Operations Research* 42(2), 546-575, 2017. (with L. Bo)

“Systemic Influences on Optimal Equity-Credit Investment”. *Management Science* 63(8), 2756-2771, 2017. (with C. Frei)

“Robust Optimization of Credit Portfolios”. *Mathematics of Operations Research* 42(1), pp. 30-56, 2017. (with L. Bo)

“Liability Concentration and Losses in Financial Networks”. *Operations Research* 64(5), pp. 1121-1134, 2016. (with P.C. Chen and D.D. Yao)

“Optimal Investment in Credit Derivatives Portfolio under Contagion Risk”. *Mathematical Finance* 26(4), pp. 785-834, 2016. (with L. Bo)

“Price Contagion through Balance Sheet Linkages”. *Review of Asset Pricing Studies* 5(2), pp. 227-253, 2015. (with M. Larsson)

“Systemic Risk Mitigation in Financial Networks”. *Journal of Economic Dynamics and Control* 58(15), pp. 152-166, 2015. (with P.C. Chen)

“Dynamic Contracting: Accidents Lead to Nonlinear Contracts”. *SIAM Journal of Financial Mathematics* 6(1), pp. 959-983, 2015. (with C. Frei)

“Systemic Risk in Interbanking Networks”. *SIAM Journal of Financial Mathematics* (**Featured Article**), 6(1), pp. 386-424, 2015 (with L. Bo). **Winner of the 2016 Bar Ilan General Prize for papers in Financial Mathematics**

“Counterparty Risk for CDS: Default Clustering Effects”. *Journal of Banking and Finance* 52, pp. 29-42, 2015. (with L. Bo)

“Dynamic Credit Investment in Partially Observed Markets. *Finance and Stochastics* 19(4), pp. 891-939, 2015. (with J.E. Figueroa-López and A. Pascucci)

“Pricing Vulnerable Claims in a Lévy Driven Model”. *Finance and Stochastics* 18(4), pp. 775-789, 2015. (with S. Pagliarani and T. Vargiolu)

“Default and Systemic Risk in Equilibrium”. *Mathematical Finance*, 25(1), 51-76, 2015. (with M. Larsson)

“Bilateral Credit Valuation Adjustment for Large Credit Derivatives Portfolios”. *Finance and Stochastics* 18(2), pp. 431-482, 2014. (with L. Bo)

“Pricing and Semi-Martingale Representations of Vulnerable Contingent Claims in Regime-Switching Markets”. *Mathematical Finance* 24(2), pp. 250-288, 2014. (with J.E. Figueroa-López and J. Niesen)

“Dynamic Portfolio Optimization with a Defaultable Security and Regime Switching”. *Mathematical Finance*, 24(2), 207-249, 2014. (with J.E. Figueroa-López)

“Optimal Contracting with Effort and Misvaluation”. *Mathematics and Financial Economics* 7 (1), 93-128, 2013. (with J. Cvitanić and T. Yolcu)

“A Variational Approach to Contracting under Imperfect Observations”. *SIAM Journal on Financial Mathematics* 3 (1), pp. 605-638, 2012. (with J. Cvitanić and T. Yolcu)

“Stochastic Filtering for Diffusion Processes with Level Crossings”. *IEEE Transactions on Automatic Control* 56, pp. 2201-2206, 2011. (with I. Fatkullin and L. Shi)

“A Convex Optimization Approach to Filtering in Jump Systems with State Dependent Transition Probabilities”. *Automatica* 46, pp. 383-389, 2010.

“Resource Optimisation in a Wireless Sensor Network with Guaranteed Estimator Performance”. *IET Control Theory and Applications* 4, pp. 710-723, 2010. (with K. Johansson, R. Murray, and L. Shi)

“Credit Risk Modeling with Misreporting and Incomplete Information”. *International Journal of Theoretical and Applied Finance* 12, pp. 81-112, 2009. (with J. Cvitanić). **Winner of the IEEE International Conference on Computational Intelligence for Financial Engineering (CIFER’09) Best student Paper Award.**

“A New Algorithm for On-line Coloring Bipartite Graphs”. *SIAM Journal of Discrete Mathematics* 22, pp. 72-91, 2008. (with H. Broersma and D. Paulusma)

“A Mean Track Approach Applied to the Multidimensional Assignment Problem”. *IEEE Transactions on Aerospace and Electronic Systems* 43, pp. 450-471, 2007. (with H. De Waard)

“Accuracy of Fused Track for Radar Systems”. *Signal Processing* 85, pp. 1189-1210, 2005. (with A. Di Lallo, A. Farina, and T. Volpi)

“A Polynomial Time Algorithm for Data Association Problem in Multitarget Tracking”. *IEEE Transactions on Aerospace and Electronic Systems* 40, pp. 1398-1410, 2004.

Revise and Resubmit Papers

“Proof of Work Proof-of-Work Cryptocurrencies: Does Mining Technology Undermine Decentralization? (with S. Olafsson and H. Alsabah). Originally circulated under the name “Pitfalls of Bitcoin’s Proof-of-Work Protocol: R&D Arms Race and Mining Centralization” and previously co-authored with H. Alsabah. *Management Science*. Revised and Resubmitted. **Winner of the best Doctoral Paper Awards at the Second Toronto Fintech Conference. Winner of the 2019 INFORMS Finance Services Student best paper competition**

“Disruption and Rerouting in Supply Chain Networks”. *Operations Research*. Revised and Resubmitted. (with J. Birge and P.C. Chen). **Third Place at the Best Paper Award Competition of the 2021 Post-Pandemic Supply Chain and Healthcare Management conference**

“Optimal Bailouts and the Doom Loop with a Financial Network”. *Journal of Monetary Economics*. Revised and Resubmitted. (with F. Corell and J. Stiglitz)

“Systemic Portfolio Diversification”. *Mathematical Finance*. Revised and Resubmitted. (with M. Weber)

“Deep Residual Learning via Large Scale Mean-Field Stochastic Optimization”. (with L. Bo and H. Liao). **Finalist at the 2021 SIAG/FME Conference Paper Prize**

SIAM Journal on Control and Optimization. Major Revision.

Submitted Papers

“The Effect of Mortgage Forbearance on Refinancing: Evidence from the COVID-19 Period”. (with R. Jia and D.A. Rios)

Working Papers

“The Evolution of Blockchain: from Lit to Dark. (with R. Jia and Y. Wang)

“The Adoption of Blockchain-based Decentralized Exchanges. (with R. Jia). **Winner of the 2021 INFORMS Finance Services Student best paper competition**

“Large Orders in Small Markets: Execution with Endogenous Liquidity Supply”. (with A. Menkveld and H. Zhang)

“Clearinghouse Default Waterfall: Risk Sharing, Incentives, and Systemic Risk”. (with J. Sethuraman and W.A. Cheng). **Winner of the 2017 INFORMS Finance Services Student best paper competition**

Market Making with Stochastic Liquidity Demand: Simultaneous Order Arrival and Price Change Forecasts (with J. Figueroa-Lopez and C. Yu)

Book Chapters, Practitioner and Policy Papers

“Derivative Clearinghouses: Collateral Management and Policy Implications”. *Ten Years after the Crash: Financial Crises and Regulatory Responses*, Chapter 23, pp. 371-383, edited by Sharyn O’Halloran and Thomas Groll, Columbia University Press, October 2019

“Systemic Risk, Policy, and Data Needs”. *INFORMS Tutorials in Operations Research*, 185-206, 2016

“Capital and Resolution Policies: the US Interbank Market”. *Journal of Financial Stability*, 30, pp. 229-239, 2017 (with J. Dooley, M. Oet, and S. Ong)

“Measuring Counterparty Risk of Large Portfolios”. *CreditFlux Magazine*, April 2014.

“Pricing and Mitigation of Counterparty Credit Exposures”. *Handbook of Systemic Risk*, Edited by J.-P. Fouque and J.Langsam, Cambridge University Press, pp. 1-21, 2012.

“Systemic Risk: Clustering and Contagion Mechanisms. *Review of Futures Markets* 21 Special Edition, 57-70, 2011 (with P.C. Chen)

“Liquidity Modeling for Credit Default Swaps: an Overview”. *Credit Risk Frontiers. The supreme crisis, Pricing and Hedging, CVA, MBS, Ratings and Liquidity*. Bloomberg Press, pp. 1-36, 2011. (with D. Brigo and M. Pedrescu)

“Bilateral Credit Valuation Adjustment with Application to Credit Default Swaps”. *In Ong, Michael ed., Managing and Measuring Capital*. London: Risk Books, pp.47-67, 2012. (with D. Brigo)

“Bilateral Counterparty Risk with Application to CDSs”. *Risk Magazine*, pp. 85-90, 2010. (with D. Brigo)

Edited Books and Special Issues

Book: Machine Learning And Data Sciences For Financial Markets: A Guide To Contemporary Practices. Co-Edited with Charles Albert Lehalle. *Cambridge University Press*, 2022.

“Special Issue: Blockchains and Crypto Economics”. Co-Edited with Bruno Biaais, Will Cong, Kay Giesecke, and Vishal Gupta. *Management Science*, 2022.

“Special Issue: Systemic Risk and Financial Networks”. Co-Edited with Robert Jarrow. *Mathematics and Financial Economics*, 2021. Preface available at <https://link.springer.com/article/10.1007/s11579-020-00286-7>

“Optimization Challenges in Complex, Networked and Risky Systems”. *INFORMS TutORials in Operations Research*, 2016. Co-Edited with Aparna Gupta, 2016.

PROFESSIONAL ACTIVITIES

Professional Service

Bachelier Finance Society: Council Member (Jan. 2022 - Dec. 2025)

SIAM Activity Group on Financial Mathematics and Engineering: Chair (Jan. 2020 - Dec. 2021), Program Director (Jan. 2017 - Dec. 2019).

INFORMS Society: Chair of the INFORMS Finance Section (Jan.2019- Dec.2021). Board Member of INFORMS Applied Probability Society (December 2015 - Jan. 2019).

INFORMS Society: Tutorials Co-chair (joint with A. Gupta) (INFORMS 2016).

SIAG Financial Mathematics and Engineering: Steering committee of the virtual seminar series (joint with I. Cialenco, R. Sircar, and S. Jaimungal). (March 2020 - December 2021)

Eastern Conference in Mathematical Finance: Member of the Steering Committee (2018-2021).

Central Clearing Interdependencies: Member of the roundtable on central clearing interdependencies, a study group established by the Basel Committee on Banking Supervision (BCBS), the Committee on Payments and Market Infrastructures (CPMI), the Financial Stability Board (FSB), and the International Organization of Securities Commissions (IOSCO). (December 2015, and September 2017)

IEEE Computational Intelligence Society: Member of the technical committee for Computational Finance and Economics. (2009-Present)

Ad-hoc Reviewer

Econometrica, Journal of Political Economy, Journal of Financial Economics, Journal of Finance, Management Science, Operations Research, Journal of the Operations Research Society of China, Journal of Money, Credit and Banking, Mathematics of Operations Research, Mathematical Finance, Finance and Stochastics, Annals of Applied Probability, SIAM Journal of Financial Mathematics, SIAM Journal on Control and Optimization, Journal of Banking and Finance, European Journal of Operations Research, Journal of Economic Dynamics and Control, Stochastic Models, Advances in Applied Probability, Applied Mathematics and Optimization, IEEE Transactions on Automatic Control, IEEE Transactions on Signal Processing, IET Control Theory and Applications, Automatica, Quantitative Finance, Mathematical and Financial Economics, Journal of Corporate Finance, International Journal of Theoretical and Applied Finance, Journal of Computational Finance, Journal of Credit Risk, Statistics and Risk Modeling, Journal of Financial Stability, Risk, Springer-Verlag, World Scientific Publishing Co.

Editorial Board

Co-Editor. *Mathematics and Financial Economics*, January 2021-present.

Department Co-Editor. *Management Science, Finance Department*, February 2019-present.

Area Editor. *Operations Research Letters*, January 2020-present.

Department Editor. *Institute of Industrial Engineering Transactions, Department of Financial Engineering*, November 18 2015- December 31, 2021.

Associate Editor. *Frontiers of Mathematical Finance*, January 2021-present.

Associate Editor. *Finance and Stochastics*, January 2020-present.

Associate Editor. *Stochastic Models*, March 2019-present.

Associate Editor. *Journal of Dynamics & Games (American Institute of Mathematical Sciences)*, January 2019-present.

Associate Editor. *Mathematics and Financial Economics*, January 2019-December 2020.

Associate Editor. *SIAM Journal on Financial Mathematics*, January 2019-present.

Associate Editor. *Stochastic Systems*, October 2018-present.

Associate Editor. *Management Science*, June 2018-January 2019.

Associate Editor. *Operations Research*, April 2018-present.

Associate Editor. *Mathematical Finance*, January 2017-December 2019.

Associate Editor. *Applied Mathematical Finance*, February 2017-present.

Associate Editor. *Operations Research Letters*, Nov 2012-December 2019.

SIAM Activity Group Liaisons for Financial Engineering. *SIAM News*, January 2020-December 2021.

Conference Chair

2021. Area Chair for “Blockchain and cryptocurrencies” of 23rd ACM Conference on Economics and Computation (EC’22)

2021. Biennial SIAM-FME Meeting (June 2021). Joint with I.Cialenco

2019. Biennial SIAM-FME Meeting (June 2019). Joint with S.Jaimungal

2017, 2018, and 2019. Cluster of Financial Services Section, INFORMS Society.

2015. Cluster of Risk Management, INFORMS Society.

Conference Organizer

2021. Workshop “Mathematics and Computation of Financial Engineering, at the Ettore Majorana Foundation and Centre For Scientific Culture” (<http://www.ccsem.infn.it/>). (Joint with P. Guasoni)

2018. “Columbia & NYU Courant Math Finance Alumni Networking Event on Quantitative Portfolio Management” (joint with P. Kolm, K. Letang, and J. Cerniglia)

2018. Conference “New Ideas and Cutting-Edge Developments in FinTech (joint with P. Carr, P. Kolm, and A. Papanicolau)

2018. “Berkeley–Columbia Meeting in Engineering and Statistics” (joint with X. Guo, M. Nutz, and Y. Zhang)

2018. Conference “Financial Networks: Big Risks, Macroeconomic Externalities, and Policy Commitment Devices” (joint with J. Stiglitz).

2017. “2nd Eastern Financial Mathematics Conference” (joint with P. Carr, P. Kolm, and A. Papanicolau), INFORMS Annual meeting (session chair), INFORMS 19th Applied probability conference (session chair)

2016. “1st Eastern Financial Mathematics Conference” (joint with A. Minca, R. Sircar, and S. Sturm)

Minisymposium and Session Chair

2018, 2020, 2022. SIAM Annual Meeting (mini-symposium chair).

2011-2021. Session chair at the INFORMS Annual Meeting

2014, 2016, 2019, 2021. SIAM-FM Biennial Meeting (mini-symposium chair)

Scientific and Steering Committees

2021. Program Committee Member of Tokenomics 2021

2021. Scientific Committee Member of the Second Federal Reserve Board Conference on the Interconnectedness of Financial Systems

2020. Scientific Committee Member of the Federal Reserve Bank of Cleveland and Office of Financial Research Financial Stability Conference: Stress, Contagion, and Transmission

2020-present. Blockchain steering committee Member (joint with Will Cong, Zhiguo He, Kose John, Christine Parlour, Andreas Park, Julien Prat, Fahad Saleh, Gerry Tsoukalas, and David Yermak.)

2020-present. SIAG/FME Virtual Seminar Series Committee (joint with Igor Cialenco, Ronnie Sircar, and Sebastian Jaimungal)

2019. Scientific Committee Member of the First Federal Reserve Board Conference on the Interconnectedness of Financial Systems

2017, 2019. Program committee member, INFORMS Applied Probability Society Conference.

2013. Program committee member, 1st IEEE Global Conference on Signal and Information Processing in Finance and Economics.

2006-2010, Annually. Program committee member, *IEEE International Conference on Information Fusion*.

Award Committee Membership

2017, 2018, 2019, 2020. INFORMS Finance Student Paper Competition.

Grant Proposal Review

- ETH Zurich Research Commission. Proposal Reviewer
- National Science Foundation panelist. CMMI Operations Engineering.
- National Science Foundation Reviewer. Applied Mathematics. Ad hoc reviewer.
- National Science Foundation panelist. Economics. Ad hoc reviewer.

INVITED TALKS, DISCUSSIONS, PLENARIES, KEYNOTES

Invited Talks

2022. NSF Institute for Mathematical and Statistical Innovation, University of Chicago, Workshop on Systemic Risk and Stress Testing; 2022 SIAM Annual Meeting; Bank for International Settlements; ETH Zurich Financial and Insurance Mathematics Seminar; Annual Conference of Chinese SIAM Activity Group of Financial Technology and Algorithm (**keynote speech**); Goldman Sachs London Mathematical Finance Seminar; CUHK **Distinguished Lecture series** in Quantitative Finance; Workshop at Bielefeld “Many player games and applications”; Berkeley Consortium for Data Analytics in Risk Seminar; GSU-RFS FinTech Conference; University of Houston, Finance Department; Crypto Conference at Santa Clara University Leavey School of Business; D. E. Shaw & Co Seminar Series;

2021. 2021 American Finance Association Meeting; 2021 American Economic Association Meeting; 2021 Eastern Finance Association Meeting; SIAM 2021 Annual Meeting; SIAM-FM 21 Biennial Meeting; Society for Economic Dynamics meeting; Cornell Finance Seminar Series; Boston University Questrom School of Business Finance Seminar; Warwick Business School; Naveen Jindal School of Management, University of Texas at Dallas; Finance and Accounting department, University of Cyprus; Stevens Institute of Technology Business School; Lally School of Management at Rensselaer Polytechnic Institute (**Dean’s Research Seminar**); Bielefeld University; Princeton Financial Math Seminar; Peking University; Scuola Normale Superiore of Pisa; NSF Institute for Mathematical and Statistical Innovation, University of Chicago, Tutorial on Human-Machine Interaction Systems; Institute of Louis Bachelier, Financial Risk International Forum, roundtable on robo advisors and automated financial advice;

2021 Australasian Meeting of the Econometric Society; 2021 China Meeting of the Econometric Society; 2021 INFORMS Annual Meeting; IEEE World Congress on Services (International Symposium on Future of Financial Services); CIRM Workshop on “Advances in Stochastic Analysis for Handling Risks in Finance and Insurance”; 5th SAFE Market Microstructure Conference; Citigroup MQA Quant Seminar; Morgan Stanley ML Seminar; FinTech@Cornell Roundtable; IAQF & Thalesians Seminar Series; Tokenomics 2021; Division of Economic and Risk Analysis (DERA) at the U.S. Securities and Exchange Commission; 9th Annual Big Data Finance Conference (**keynote speech**);

2020. 2020 American Finance Association Meeting; 2020 American Economic Association Meeting; 2020 Utah Winter Finance Conference; 50th Anniversary Financial Management Association Conference; Fields Quantitative Finance Seminar; University of Southern California Math Finance Colloquium (virtual); Online National University of Singapore Quantitative Finance Seminar Series; Program of the Institute Louis Bachelier: Robo-Advisor Workshop (**key speaker**); 12th Annual Hedge Fund Research Conference; University of Memphis (Department of Finance, Insurance, and Real Estate); NYU Tandon School of Engineering Finance & Risk Engineering Lecture Series; Banque de France ACPR Research Seminar; Second New York Fed Research Conference on FinTech; 2020 INFORMS Annual Meeting; Austrian Central Bank; Florida State University; Stony Brook University (Quantitative finance webinar); University of Science & Technology Beijing; Georgetown Global Virtual FinTech Seminar Series (robo-advising workshop); Chaire Stress Test virtual workshop (joint program between Ecole Polytechnique, BNP Paribas, and Fondation de l’Ecole Polytechnique);

2019. University of Illinois at Urbana Champaign (Industrial & Enterprise Systems Engineering); UC Louvain (Finance Seminar); Georgia State University (Robinson College of Business); Washington University in Saint Louis; SIAM Conference on Financial Mathematics and Engineering 2019; The First Waterloo Conference in Statistics, Actuarial Science and Finance; Fields Institute Workshop; Workshop on equilibrium theory (Rutgers University); Federal Reserve Board Conference on the interconnectedness of financial systems (discussant); Conference on Fintech and Machine Learning (National University of Singapore); 2019 INFORMS Annual Meeting; CEBRA 2019 Annual Meeting, Session on Digital Currency Economics and Policy (School of International and Public Affairs (SIPA), Columbia University); Chapman conference on Liquidity; CEPR-Imperial-Plato Market Innovator conference; Bank of Canada; Workshop: New Ideas in Quantitative Finance (Stony Brook University); The Regulation and Operation of Modern Financial Markets (University of Iceland); 2019 INFORMS Applied Probability Meeting; International Conference on Industrial and Applied Mathematics 2019; Columbia University Mathematical Finance Seminar; INET Taskforce “Macroeconomic Efficiency and Stability” 2019 Annual Meeting

2018. Humboldt University; University of California Berkeley; Carnegie Mellon University; University of Pittsburgh; Florida State University; Purdue University; University of Connecticut; University of California Santa Barbara; Faculty Lunch Seminar, NYU Tandon School of Engineering; SIAM Annual Meeting; A Symposium on Optimal Stopping in memory of Larry Shepp (**plenary talk**); Financial Engineering and Risk Management International Symposium 2018; Center for Financial Studies Workshop 2018 “Artificial Intelligence & Machine Learning in Financial Services” (**plenary talk**); GRI-Fields Institute Seminar; INFORMS Annual Meeting; Financial Intermediation Research Society conference; Fourth Annual Conference on Network Science and Economics; Columbia Financial Engineering Practitioners seminar; XVA Training Course (Risk Magazine); Board of Governors of the Federal Reserve System Finance Forum; 2018 Market Microstructure Confronting Many Viewpoints Conference; 3rd Eastern Conference in Mathematical Finance; Security Exchange Commission; Department of Treasury’s Office of Financial Research; Bank of England Conference on Non-bank Financial Institutions and Financial Stability; INET Taskforce “Macroeconomic Efficiency and Stability” 2018 Annual Meeting;

2017. Oxford University (seminar at Institute for New Economic Thinking at the Oxford Martin School, and seminar at Mathematical and Computational Finance seminar); Massachusetts Institute of Technology, LIDS Center; Cambridge University (Judge Business School); London

School of Economics (Risk and Stochastics and Financial Mathematics Seminar); Stanford University (Management Science and Engineering); Eighteenth World Congress of Economics (plenary session); Minisymposium on limit order book and high frequency trading (University of Pittsburgh); Brown-Bag Seminar at Decisions Risk and Operations (Columbia University); Centre de recherches mathématiques (CRM) of Montreal, Risk Measurement and Regulatory Issues in Business workshop; Centre de Recherches Mathématiques in Montreal, Workshop on Measurement and Control of Systemic Risk; The Campbell-Lo-MacKinlay conference on the Econometrics of Financial Markets; INFORMS Applied Probability Meeting (Kellogg School of Management); University of Chicago, Stevanovich Center for Financial Mathematics (Market Microstructure and High-Frequency Data annual conference); INFORMS Annual Meeting; Third Annual conference on Network Science and Economics; New York University, Economics Department; The Hong Kong Polytechnique University; The Chinese University of Hong Kong; IMS-FIPS Workshop; Indiana University, Economics Department; 17th Federal Deposit Insurance Corporation-JFSR Fall Bank Research Conference; Ten Years After the Financial Crisis Conference at Columbia University;

2016. Financial Engineering Practitioners Seminar (Columbia University); Ecole Polytechnique Paris, Center of Applied Mathematics; Frontiers in Stochastic Modeling for Finance; IBM T.J. Watson Research Center (Mathematical Sciences); Second International Congress on Actuarial Science and Quantitative Finance, Cartagena (Colombia); Berkeley-Columbia Meeting in Engineering and Statistics (UC Berkeley); University of Illinois at Urbana Champaign (Mathematical Finance, Risk and Uncertainty Seminar); ETH Zurich (Insurance Mathematics and Stochastic Finance); Risk measures, Capital allocation and Central counterparties workshop (Standard Chartered offices in Singapore); Canadian Operational Research Society Annual Conference (Banff); Vienna Congress on Mathematical Finance; INFORMS Annual Meeting (**invited tutorial** and session speaker); IMS-FIPS Workshop; GRI-Fields Conference and Workshop on the Stability of Financial Systems: Modelling, Regulation and Stress Testing; Second Bar-Ilan Conference on Financial Mathematics (Tel Aviv); 9-th World Congress of the Bachelier Finance Society; Quant Summit USA 2016; University of Michigan (Financial/Actuarial Mathematics); SIAM Conference on Financial Mathematics and Engineering 2016; American Mathematical Society 2016: Fall Eastern Sectional Meeting in Brunswick, ME; Global Risk Institute Summit 2016: Risk and Reward; Fields Institute's Quantitative Finance Seminar Series 2016.

2015. Systemic Risk in Financial Markets Workshop (Hannover); VU University Amsterdam; 2015 Financial Stability Conference: Policy Analysis and Data Needs; The Consortium for Systemic Risk Analytics (Massachusetts Institute of Technology); New York University; Global Risk Institute (Toronto); Data, Algorithms and Problems on Graphs Workshop (Columbia University); CUNY Probability Seminar; INFORMS Annual meeting; IAQF & Thalesians Seminar Series; 7th General AMaMeF and Swissquote Conference (École Polytechnique Fédérale de Lausanne); IBM T.J. Watson Research Center (Electrical Engineering); IMS-FIPS Workshop (Rutgers University); University of Maryland; April 16th INET Seminar (Columbia University); Cornell University; Stevens Institute of Technology; Carnegie Mellon University (Math Department); Carnegie Mellon University (Tepper School of Business); Columbia University (Math Finance Seminar); Morgan Stanley; IPAM Institute (University of California Los Angeles); California Institute of Technology; Stanford University; Princeton University; US Commodity Futures Trading Commission; Office of the Comptroller of Currency.

2014. 2014 Financial Stability Conference; SIAM Conference on Financial Mathematics & Engineering, Chicago; TU Berlin and Humboldt University; INFORMS Annual meeting; Isaac Newton Institute for Mathematical Sciences (Cambridge University); Conference on Credit and Systemic Risk (Boston University); Columbia University; Worcester Polytechnic Institute; Workshop on New Directions in Financial Mathematics and Mathematical Economics (Banff International Research Station); Joint Mathematics Meetings, Imperial College London (Stochastic Analysis Seminars and Finance and Stochastic Seminars); London School of Economics.

2013. Conference on Mathematical Finance and Partial Differential Equations (Rutgers Uni-

versity); Texas Quantitative Finance Festival (University of Texas, Austin); AMS 2013 Fall Eastern Sectional Meeting (Temple University); INFORMS Annual meeting; Federal Bank of Cleveland; Dublin City University; Frontiers in Financial Mathematics Conference; 2013 Financial Stability Analysis Conference: Using the Tools, Finding the Data; Purdue University (Computational Finance Seminar); University of Wisconsin-Milwaukee; Illinois Institute of Technology; Johns Hopkins University.

2012. Carnegie Mellon University; INFORMS Annual meeting; Quant Congress USA; SIAM Biennial Meeting Financial Mathematics, Minneapolis; IMS on Finance: Probability and Statistics (University of California, Berkeley); Marcus Evans CVA Funding and Valuation for Derivatives Conference (New York); Columbia University (Math Finance Seminar).

2011. Illinois Institute of Technology; INFORMS Annual meeting; 7th International Congress on Industrial and Applied Mathematics (ICIAM 2011); École Polytechnique Fédérale de Lausanne, Swiss Institute of Finance; AMS 2011 Central Section Meeting (University of Iowa); Purdue University (Computational Finance seminar); Cornell University;

2010. INFORMS Annual meeting; SIAM Biennial Meeting Financial Mathematics and Engineering, San Francisco; Derivatives, Volatility & Correlation (Warwick Business School, discussant); Fields Institute for Research in Mathematical Science.

2009. INFORMS Annual meeting; Purdue University; Lehigh University; Auctions, Market Mechanisms and Their Applications (First International ICST Conference), Boston; IEEE International Conference on Computational Intelligence for Financial Engineering (invited tutorial, video available at http://ewh.ieee.org/cmte/cis/mtsc/ieeecis/video_tutorials.htm).

Invited discussions

2021. NBER Big Data and Securities Markets, Fall 2021. Discussion of paper: AlphaPortfolio: Direct Construction Through Deep Reinforcement Learning and Interpretable AI, Authors: Lin William Cong, Ke Tang, Jingyuan Wang, and Yang Zhang.

2021. CEBRA 2021 Annual Meeting. Discussion of paper: Decentralized Exchanges, Authors: Alfred Lehar and Christine A. Parlour.

2021. European Finance Association. Discussion of paper: Optimal Tax-Timing with Transaction Costs, Authors: Min Dai, Yaoting Lei, and Hong Liu.

2020. Second New York Fed Research Conference on FinTech. Discussion of paper: The Effect of Secondary Market Existence on Primary Market Liquidity: Theory and Evidence from a Natural Experiment in Peer-to-Peer Lending, Authors: Craig Holden, Mingfeng Lin, Kai Lu, Zaiyan Wei, and Jun Yang.

2019. March, 7. Discussion of paper: Collateralized Debt Networks with Lender Default, Author: Jin-Wook Chang. Federal Reserve Board Conference on the Interconnectedness of Financial Systems

2017. November 3. Discussion of the Paper “Expected Stock Returns and the Correlation Risk Premium”, Author: Lorenzo Shoenleber. 2nd Eastern Conference in Mathematical Finance

2016. October 28. Discussion leader, jointly with P. Glasserman of the Panel “The Future of Systemic Risk Measurement and Regulation”. Workshop on Systemic Risk in Insurance, Columbia University, New York.

2015. April 16. Discussion of the paper: The price of Complexity in Financial Networks, Authors: S. Battiston, G. Caldarelli, R. May, T. Roukni, and J. Stiglitz. April 16th Institute of New Economic Thinking Seminar, Columbia University, New York

Outreach Efforts

- Academic Mentor for the Ithaca Education Consulting Group (IECG), March 2017-present
- Lab Demo: ENG Summer Program, July 3, 2017 (Number of Students: 15, Grade: 9th-10th)
- Lab Demo: Intrepid Museum's GOALS for Girls, July 18, 2017 (Number of Students: 25, Grade: 8th-9th)
- Columbia University Visit: Inside Engineering, May 30, 2018 (Number of Students: 8, Bronx School for Science and Mathematics, Grade: 8th-9th)

TEACHING

Columbia

Graduate

IEOR E8100: Networks: Games, Contagion and Control, New graduate level course developed, IEOR Department, Columbia University. Spring 2017, Spring 2018, Spring 2019. *Spring 2017, Course Evaluation: 4.64/5.0, Instructor Evaluation: 4.64/5.0, Number of enrolled students: 20. Spring 2018, Course Evaluation: 5.0/5.0, Instructor Evaluation: 5.0/5.0, Number of enrolled students: 10 Spring 2019, Course Evaluation: 4.83/5.0, Instructor Evaluation: 4.83/5.0, Number of enrolled students: 13 Spring 2021, Course Evaluation: 4.25/5.0, Instructor Evaluation: 4.75/5.0, Number of enrolled students: 9*

IEOR E4709: Data Analysis for Financial Engineering, Instructor, IEOR Department, Columbia University. Spring 2017, Spring 2018, Spring 2019, Spring 2020. *Spring 2017,*

Course Evaluation: 4.11/5.0, Instructor Evaluation: 4.11/5.0, Number of enrolled students: 81. Spring 2018, Course Evaluation: 4.47/5.0, Instructor Evaluation: 4.43/5.0, Number of enrolled students: 106. Spring 2019, Course Evaluation: 4.28/5.0, Instructor Evaluation: 4.38/5.0, Number of enrolled students: 119. Spring 2020, No Course Evaluation due to COVID 19, Number of enrolled students: 102. Fall 2020, Compressed in half a semester due to COVID, Course Evaluation: 3.9/5.0, Instructor Evaluation: 4.07/5.0, Number of enrolled students: 38.

IEOR E4707: Continuous Time Asset Pricing, Instructor, IEOR Department, Columbia University, Spring 2015, Spring 2016. *Spring 2015 Course Evaluation: 4.3/5.0, Instructor Evaluation: 4.34/5.0, Number of enrolled students: 91. Spring 2016 Course Evaluation: 4.62/5.0, Instructor Evaluation: 4.53/5.0, Number of enrolled students: 90.*

IEOR E4602: Quantitative Risk Management, Instructor, IEOR Department, Columbia University, Spring 2020. Spring 2020: No Course Evaluation due to COVID 19: Number of enrolled students: 39.

IEOR E4731: Credit Risk/Credit Derivative, Instructor, IEOR Department, Columbia University, Summer 2015, Summer 2016, Fall 2017, Fall 2018, Fall 2019. *Summer 2015 Course Evaluation: 4.08/5.0, Instructor Evaluation: 4.23/5.0, Number of enrolled students: 15. Summer 2016 Course Evaluation: 4.71/5.0, Instructor Evaluation: 4.71/5.0, Number of enrolled students: 7. Fall 2017 Course Evaluation: 4.68/5.0, Instructor Evaluation: 4.74/5.0, Number of enrolled students: 31. Fall 2018 Course Evaluation: 4.56/5.0, Instructor Evaluation: 4.61/5.0, Number of enrolled students: 33. Fall 2019 Course Evaluation: 4.43/5.0, Instructor Evaluation: 4.62/5.0, Number of enrolled students: 26.*

Other institutions

Undergraduate

IE 343: Engineering Economics, Instructor, Department of Industrial Engineering, Purdue University, Fall 2010, Spring 2011, and Fall 2013. *Fall 2010 Course Evaluation: 4.0/5.0, Instructor Evaluation: 4.1/5.0, Number of enrolled students: 270. Spring 2011 Course Evaluation: 4.1/5.0, Instructor Evaluation: 4.1/5.0, Number of enrolled students: 125. Fall 2012 Course Evaluation: 4.0/5.0, Instructor Evaluation: 4.0/5.0, Number of enrolled students: 275.*

Graduate

EN.550.428: Stochastic Processes and Applications to Finance II, Instructor, Department of Applied Mathematics and Statistics, Johns Hopkins University. *Spring 2014 Course evaluation: 4.55/5.0, Instructor Evaluation: 4.52/5.0, Number of enrolled students: 30.*

EN 550.648: Credit and Systemic Risk, Instructor, Department of Applied Mathematics and Statistics, Johns Hopkins University. *Fall 2013 Course Evaluation: 4.6/5.0, Instructor Evaluation: 4.57/5.0, Number of enrolled students: 20.*

IE 590: Credit Risk, Instructor, Department of Industrial Engineering, Purdue University. *Spring Semester 2013 Course Evaluation: 4.9/5.0, Instructor Evaluation: 4.9/5.0, Number of enrolled students: 15.*

ISE 563: Financial Engineering, Instructor, Department of Industrial and Systems Engineering, University of Southern California. *Summer 2009, Number of enrolled students: 23.*

DEPARTMENTAL
SERVICE

Columbia University

2020. Reviewer of Collaborative research proposals from Columbia University faculty, in response to call: Technology Innovations for Urban Living in the Face of COVID-19.

Fall 2018, Spring 2019, Fall 2019, Spring 2020. Co-organizer of the Financial Engineering Practitioners Seminars (IEOR, Columbia University). Joint with E. Derman.

2018. Reviewer of Research Proposals for the Seed Funds Program of the Data Science Institute.

2015, 2016, 2017, 2019. Faculty Search Committee (IEOR, Columbia University), PhD admissions committee (IEOR, Columbia University).

2015, 2016, 2017, 2019, 2020, 2021. PhD admissions committee (IEOR, Columbia University).

2015-2020. Member of the Selection Committee for Masters in Financial Engineering (MSFE).

Other Academic institutions

2013-2014. Communications Committee (Johns Hopkins University).

2010-2012. Undergraduate Curriculum Committee (Purdue University), Graduate Admission Committee (Purdue University).

STUDENTS MENTORING

Dissertation Defense Committee Member:

Wenjun Wang (IEOR, Columbia University, December 2021); Yu, Chuyi (Mathematics and Statistics, Washington University in Saint Louis, July 2021); Edward Kim (Applied Mathematics, University of Sydney, May 2021); Tangirala Gowtham (Graduate School of Business, Columbia University, April 2021); Aref Bolandnazar (Graduate School of Business, Columbia University, April 2021); Yiwen Shen (Graduate School of Business, Columbia University, April 2021); Yaarit Even (Graduate School of Business, Columbia University, December 2020); Kerstin Awiszus (University of Hannover, Mathematische Stochastik, July 2020); Lin Chen (IEOR, Columbia University, March 2020); Siyuan Chen (Mechanical Engineering, Columbia University, June 2019); Weijie Pang (Mathematics, Worcester Polytechnique Institute, April 2019); Xu Sun (IEOR, Columbia University, March 2019); Octavio Ruiz Lacedelli (IEOR, Columbia University, February 2019); Marco Francischello (Mathematics, Imperial College London, February 2019); Desmond Ng (Applied Mathematics, The University of Sydney, August 2018); Di Xiao (IEOR, Columbia University, August 2017); Yannick Armenti (Mathematics Department, Evry University, July 2017); Brian Ward (IEOR, Columbia University, June 2017); Yuan Kai (Graduate School of Business, Columbia University, April 2017); Jing Guo (IEOR, Columbia University, March 2017); Richard Neuberg (Statistics, Columbia University, October 2016); Zheng Wang (IEOR, Columbia University, October 2016); Juan Li (IEOR, Columbia University, May 2015); Marco Santoli (IEOR, Columbia University, April 2015); Jeff Nisen (Statistics, Purdue University, June 2013); Stefano Pagliarani (Mathematics, University of Padua, October 2013);

Graduate Students Supervision

- Ruizhe Jia, IEOR Department, Columbia University. Ph.D. Topic: Systemic Risk and Financial Technology. Expected graduation date: June, 2023.
- Humoud Alsabah, IEOR Department, Columbia University. Ph.D. Dissertation Title: Essays in Networked Markets and Financial Technology. Graduation date: April, 6, 2020. First Position: Assistant Professor, Kuwait University, Department of Industrial Engineering
- Allen Cheng, IEOR Department, Columbia University. Ph.D. Dissertation Title: Clearing-house Default Resources: Theory and Empirical Analysis. Graduation date: September, 20, 2017. First job: AQR Capital Management.
- Peng-Chu Chen, Department of Industrial Engineering, Purdue University. Ph.D. Topic: Systemic risk in financial networks. Graduation date: July 2016. First job: Assistant

Professor, The University of Hong Kong, Department of Industrial and Manufacturing Systems Engineering.

Postdoc/Research Associate Mentoring

- Michael Rath, IEOR Department, Columbia University. Topics: Risk Management in Power Grids. Post-doc. January 2021-December 2021 (joint with D. Bienstock and G. Iyengar).
- Sveinn Olafsson, IEOR Department, Columbia University. Topics: FinTech and Robo-Advising. Post-doc. September 2018-Present.
- Zhaoyu Zhang, IEOR Department, Columbia University. Topics: FinTech and Machine Learning in Finance. Post-doc. August 2019-July 2020. First Position: Assistant Professor, University of Southern California, Department of Mathematics
- Marko Weber, IEOR Department, Columbia University. Topics: Balance Sheet Optimization, XVA, and Automated Trading. Post-doc. March 2017-March 2019. First Position: Assistant Professor, National University of Singapore, Department of Mathematics
- Hongzhong Zhang, IEOR Department, Columbia University. Topics: High Frequency Trading and Clearinghouses. Associate Research Scientist. May 2016-July 2019. First job: Quantitative Researcher, Enlightenment Research, LLC
- Benjamin Bernard, IEOR Department, Columbia University. Topics: Game theoretical models for commodity and financial networks. Post-doc. February 2016-June 2017 and March 2019-July 2019. First position: Assistant Professor, Department of Economics, National Taiwan University
- Matthew Stern, IEOR Department, Columbia University. Topics: Human Machine Interaction Games. Post-doc. February 2017-March 2018. First job. Senior Data Scientist, Wayfair

Research Undergraduate Student (REU)

- Thu Hai Pham, IEOR Department, Columbia University. Topics: Games of Strategic Banks' Liquidation. June 2018-September 2018.
- Sarina Liu, IEOR Department, Columbia University. Topics: Systemic Risk and Crowdfunding. June 2019-August 2019.

E.N.G. SEAS's Outreach research program for high school students

- Justin Peralta, IEOR Department, Columbia University. Topics: Numerical Implementation of Banks' Liquidation Strategies. July 2018-August 2018.
- Eleazar Neri, IEOR Department, Columbia University. Topics: Numerical Implementation of Banks' Liquidation Strategies. July 2018-August 2018.

PROFESSIONAL MEMBERSHIPS

Member of the Econometric Society, INFORMS Society, SIAM Society, Bachelier Society, American Finance Association, European Finance Association, International Economic Association, International Association for Quantitative Finance.

INDUSTRIAL EXPERIENCE

Signal processing engineer and Marie Curie fellow (Thales Naval Netherlands, Feb. 2003- July 2004), Spring Associate credit trading strategist (JP-Morgan, March-June 2008), Summer Associate (Citigroup, July-September 2008), Summer Associate (Ellington Management Group, July-September 2006 and June-August 2007).
