Q1 What are the strengths and weaknesses of your teaching assistant (discussion section leader, lab section leader, grader, or other assistant) as an instructor, and how might his or her teaching be improved?

- Anh is super organized, cares about her students, and makes sure everyone understands material before moving on.
- she's A++++
the reason i'm getting an A
- She was very helpful and clear.
- She was funny, respectful, and a great TA.
- .
- She knew what she was talking about and didn't mind taking any questions in the middle of recitation even if it wasn't relevant to the current topic.
- She was very effective. She explained concepts and ideas really clearly and answered questions effectively. I thought that the weekly sections with her were most effective in my comprehension of the material.
- She is chill.
- The first one answered all of them.
- Excellent TA. I've attended all TA's recitations and this was the one I stayed for the remaining of the course. She knows her material and covers everything there is to know. Prepares will for the exam and guides students to participate with the recitation.
- Seriously amazing, I loved Anh!!!!
- Anh is an extremely efficient and knowledgeable teaching assistant. While other TA's sometimes were confused or misinformed/ made mistakes, Anh never made a mistake. She never once forgot assignments that needed handing back or lost her train of thought. My section continuously had top marks and that was probably due to her. She answers emails clearly and in a timely manner. No complaints. Even though she is not native, she speaks perfect English, clearly and eloquently. I don't think her teaching can be improved because she had no weaknesses. She always prepared us adequately for all exams, and ALWAYS makes sure to ask if anyone has any questions or issues before moving on from a subject. She is extremely professional and simultaneously personable. Take her Section.

- Anh is by far one of the best TA's I've had. She only has 50 minutes per class, but she does a great job of explaining the material clearly. The recitation goes at a much quicker pace than the lecture which is beneficial since more information is taken in by the students. I don't see any areas in which she can improve because she is already an excellent TA.
 - nice, smart and hard working
 - Anh is good at explaining material. While it is clear that she doesn't spend as much time on the problem sets and stuff as Cameron (an unfair comparison, in all honesty) but she is still helpful and her office hours always helped me.
 - Anh is an excellent discussion leader. She was able to articulate all of the important points very well
 - Very approachable and helpful
 - Anh is a good TA. She gets the lessons across in a way that everyone seemed to understand and she was a big help on problem sets.
 - She's very smart but she goes really fast when covering material. Sometimes it is hard to keep up unless you really understand the material. I consider recitation as a place to learn more details and learn something that I don't understand.

Q1 What are the strengths and weaknesses of your teaching assistant (discussion section leader, lab section leader, grader, or other assistant) as an instructor, and how might his or her teaching be improved?

- Anh was very helpful to me. I could not go to recitations, but I always got a timely response if I emailed her with questions... The more detailed my questions and the more I explained my thinking, the more she would offer or contribute in response.
 - Anh Nguyen was a very good TA, extremely clear in her organization and teaching. Examples corresponded to the content the class and recitation were often very helpful
 - Anh was an excellent TA. She explained concepts well, responded to emails, and frequently helped students who asked for assistance.
 - Extremely thankful to Anh for her patience with me throughout this course. I have definitely struggled with this course, but she was always willing to repeat things I did not understand and do her best to explain the topics in class in a concise manner. Extremely thankful for her and Arpita as they truly got me through this course.
 - Any very clearly and helpfully covered material from the problem sets that were not addressed in the lectures.
 - Incredibly fast with emails. Always very helpful with questions.
 - Great at explaining problems in the PSETs and leading recitation.
 - Excellent--superb knowledge of content and delivery of material

- Had very good recitations, easily accessible during office hours, and was very responsive to emails.

 - Very clear
 - Approachable
 - Easily adapts when students don't understand something
 - Expertly goes over concepts in an intuitive way

 - Anh was an invaluable resource. She was very good at breaking down concepts and always patient with basic questions.
 - Very helpful and prompt in answering questions.

Q1 What are the strengths and weaknesses of your teaching assistant (discussion section leader, lab section leader, grader, or other assistant) as an instructor, and how might his or her teaching be improved?

- I was very pleased how fast she responded to my emails. Also, she answered my questions that helped me understand the material better.
- Well organized recitation, helpful and approachable, very fair grading
- Ahn has been a great TA.
She is always prepared and willing in recitations and office hours. She also cares about the students- she knew the names of everyone who went to her recitation and emailed us when there was a mistake in her notes.
- Extremely clear at delivering complex concepts. Very friendly, approachable, knowledgeable, quick-witted, and hardworking on behalf of the students.
- Anh made her own lesson plans and was able to explain advanced concepts clearly and concisely. She went through several practice problems during her recitations, and was always happy to explain course material during office hours. Phenomenal TA overall.
- Anh is incredibly organized and it's clear that she has put in time and effort to prepare for the recitation sessions.
- Too harsh, not very nice.
- The grading wasn't very clearly explained.
- Recitations could have been more structured with a clear agenda of topics to be covered. It would have been immensely helpful if the TA had prepared practice problems and worked through them clearly during recitation.
- Anh's recitations are quite helpful! She is really patient and she does prepare a lot for the recitations. She also helps me a lot in understanding some difficult questions.
- Anh was excellent! Her recitations were very organized and I appreciated that she handed out notes before for us to follow along with. She was also very helpful with problem sets during office hours.
- Both TAs were extremely harsh graders, they would take off points for not answering questions that weren't even part of the homework question - for example when I asked Anh where I lost a point, she said "your answer is right but you didn't include this additional part" - this additional part was not even in the homework question so how was I supposed to know to include it? It is extremely frustrating to deal with because their expectations are not the same as the homework.
- Anh explains concepts concisely and clearly. She is always very helpful when answering questions, be they in person or over email.

- Anh was a great TA! She was really clear in recitations, and came prepared every week to explain difficult concepts. She was also really helpful in her office hours.
 - Anh's recitation sessions were awesome. She is very dedicated to make every student understand the subject and its implications. Wish Anh could have taken over some of the lectures as well. She is definitely Professor material.
 - #1: She actually came prepared to her recitations. SHE WROTE PROBLEMS and notes for us to work through. Nate didn't.
#2: She is very friendly, patient, enthusiastic and for whatever reason, interested in this subject.
 - Anh is a wonderful TA: Always attentive and patient.
 - The TA did a great job on answering question and helping the students. I particularly appreciate her note on the TA session.
 - Could have provided more explanation on some of the problem set corrections
 - Anh's one weakness may be her super rigorous grading. Sometimes I thought she may have been too harsh on the PSETs. Besides that though, she clearly cares about TAing and she clearly has a mastery over the material both in her structured recitation explanations and in any questions I send her way.
 - No comment - unclear which TA graded which problem sets but some of the problem sets felt like they were graded rather harshly. The grading on the midterm exam, however, felt very fairly graded.

Q1 Comments on TA effectiveness

- Smart and effective! Very Good TA

 - Anh is one of the best TAs I've ever had. She was always so helpful and put in so much time explaining everything to each student. She was also really understanding of students who may have needed more time to understand the material and made sure everyone understood before moving on in Recitations and office hours. Seriously a brilliant TA - she made the course very clear and obviously knows what she is talking about.

Q1 Comments on TA effectiveness

- To be fair, I mainly communicated with the TA through email and I know that she answers questions efficiently and knowledgeably. However, she does not participate in class or teach, and thus she is not a big component of this class.
 - I did not have any contact with the TA
 - Anh is great
 - Never met the TA but the grading and behind the scene work was fair
