

CPS2017 presentation

List of relevant references

Beatrice Beebe, PhD

(1) my presentation on the origins of disorganized attachment can be found in:

Beebe et al., (2012). On the origins of disorganized attachment and internal working models: Paper II. An empirical microanalysis of 4-month mother-infant interaction. *Psychoanalytic Dialogues*, 22:352–374.

and the original empirical presentation of these data can be found in:

Beebe et al., (2010). The origins of 12-month attachment: A microanalysis of 4-month mother-infant interaction. *Attachment & Human Development*, 12 (1-2), 1-135.

(2) my discussion of the relevance of my findings for the origins of adult dissociation can be found in:

chapter 4 of

Beebe, B. & Lachmann, F. (2014). *The origins of attachment: Infant research and adult treatment*. NY: Routledge Press.

(3) the best statement of my systems view of mother-infant communication can be found in:

Beebe et al., (2016). A systems view of mother–infant face-to-face communication. *Developmental Psychology*, 52(4), 556–571.

(4) How maternal depression and anxiety affect mother-infant communication can be found in:

Beebe et al., (2008). Six-week postpartum depressive symptoms and 4-month mother-infant self- and interactive contingency. *Infant Mental Health Journal*, 29 (5), 442-471.

Beebe et al., (2011). Maternal anxiety and 4-month mother-infant self- and interactive contingency. *Infant Mental Health Journal*, 32 (2), 174–206.

(5) A discussion of Daniel Stern and the beginning of the field of microanalysis of mother-infant communication can be found in:

Beebe, B. (2017). Daniel Stern: Microanalysis and the empirical infant research foundations. *Psychoanalytic Inquiry*, 37, 228-241.
