

MEREOLOGY

A. J. COTNOIR & ACHILLE C. VARZI

March 17, 2018
(Complete Draft)

CONTENTS

PREFACE	vii
1 WHAT IS MEREOLGY?	1
1.1 A Bit of History	2
1.2 Contemporary Perspectives	5
1.2.1 Mereology as Formal Ontology	6
1.2.2 Mereology as an Alternative to Set Theory	8
1.3 'Part' and Parthood	12
1.4 Parts and Wholes	15
1.5 The Formal Setting	17
2 CLASSICAL MEREOLGY	21
2.1 A Perspicuous Axiom System	22
2.1.1 A Partial Order	22
2.1.2 Decomposition	25
2.1.3 Composition	29
2.2 Algebraic Models	32
2.2.1 Boolean Algebras	32
2.2.2 Complete Boolean Algebras are Models	35
2.2.3 Models are Complete Boolean Algebras	37
2.3 Set-theoretic Models	40
2.3.1 Finite Models	40
2.3.2 Infinite Models	43
2.4 Other Axiom Systems	44
2.4.1 Proper Parthood as Primitive	45
2.4.2 Overlap or Disjointness as Primitive	48
2.4.3 More Parthood Axiomatizations	50
2.4.4 Further Options	51

3	PARTHOOD	55
3.1	Reflexivity and Irreflexivity	57
3.1.1	Concrete Self-parts	58
3.1.2	Abstract Self-parts	60
3.2	Antisymmetry and Asymmetry	63
3.2.1	Loops	63
3.2.2	Mutual Parts and Extensionality	66
3.3	Transitivity	73
3.3.1	Distinguished Parts	75
3.3.2	Immediate Parts	78
3.3.3	Parts of Parts	83
3.3.4	Local Transitivity and Beyond	87
4	DECOMPOSITION	91
4.1	Complementation	93
4.1.1	Remainders	94
4.1.2	Boolean Complements	97
4.1.3	Complementation and Composition	102
4.2	Strong Supplementation	104
4.2.1	Supervenience	106
4.2.2	Strong Supplementation and Extensionality	107
4.3	Weak Supplementation	110
4.3.1	Solitary Parts	112
4.3.2	Weak Supplementation and Extensionality	117
4.3.3	Strictly Weak Supplementation	121
4.4	Even Weaker Supplementation	124
4.5	Null Objects	131
4.6	Atoms and Gunk	139
4.6.1	Atomism	142
4.6.2	Atomlessness	147
4.6.3	Hybrid Theories	152
5	COMPOSITION	155
5.1	Fusions	156
5.1.1	Types of Fusion	156
5.1.2	Comparisons	159
5.2	Existence and Identity	168
5.2.1	Existence	169
5.2.2	Uniqueness	181
5.2.3	Composition as Identity	185
5.3	Structured Composites	192
5.3.1	Levels	193

5.3.2	Order	195
5.3.3	Repetition	196
5.3.4	Compositional Pluralism	198
5.4	The Universe	201
5.4.1	A Russell Paradox?	203
5.4.2	Super-Universal Wholes	207
5.5	Coatoms and Junk	210
6	LOGIC	219
6.1	Expressive Power	219
6.1.1	Second-Order Mereology	221
6.1.2	Plural Quantification and Megethology	225
6.2	Time and Modality	231
6.2.1	Temporal and Modal Parts	233
6.2.2	More Arguments for Parthood	238
6.2.3	Modal Mereology	246
6.3	Indeterminacy	250
6.3.1	De Dicto and De Re	251
6.3.2	Ontic Indeterminacy	253
6.3.3	Fuzzy Mereology	256
6.3.4	Overdeterminacy and Paraconsistency	260
6.4	Non-classical Logics and Non-classical Mereologies	265
	BIBLIOGRAPHY	269
	INDEX	343
	AXIOM SYSTEMS FOR CLASSICAL MEREOLGY	357
	LIST OF LABELED FORMULAS	361
