Comments for TA effectiveness - Bernd Hilmar Johannes Beber

TA led review sessions were essential for understanding the material. Bernd went above and beyond. Truly exceptional.

Bernd was excellent in a lucid way he was able to clarify even the most complex issues that came up in lectures and he helped us to understand and apply the core concepts of the class. His work in the review sessions as well as in his individual office hours contributed immensely to the effectiveness of the course. His responses to email questions were always timely and thorough and his general attitude toward the students was great. I greatly enjoyed having him as the TA for this class.

recitations were very helpful. access to TA was very good.
