

DOCUMENTATION CHANGE NOTICE

Product/Manual: WORDPERFECT 5.1 WORKBOOK
Manual(s) Dated: 12/90, 6/91 and 8/91
Machines: IBM PC and Compatibles

This file documents all change made to the documentation since its initial printing dated 11/89. The documentation changes are divided in two sections:

New Information contains additions or changes to the manual which represent modifications to the WordPerfect program.

Typographical Errors and Minor Corrections contains typographical corrections and changes to the manual which do not represent modifications to the WordPerfect program.

New Information

Lesson 11: File Management
Pages(s): 85
Manual Date: 06/91

The third paragraph under Printing a List of Files now says:

The printed list includes the heading information you see on your screen with the current date, time, and directory. Also included is the amount of free space on the disk.

We also added an italic note after step 1. It says:

Important: The list of files on your screen will not print if you are using the Workbook Printer. To print the list of files, you must choose a printer other than the Workbook Printer (see Selecting a Printer in Lesson 8). (1,351)

Typographical Errors and Minor Corrections

Introduction

Lesson 25: Special Techniques
Page(s): 271
Manual Date: 12/90

Step 4 now says:

Select **D**ecimal/Align Character (3), type a comma (,) for the decimal character, then type a period (.) for the thousands' separator. (#1,639)

Lesson 25: Special Techniques
Page(s): 274
Manual Date: 08/91

The phrase, "Press Left Arrow (), then" was deleted from step 4. (#1,687)

Lesson 25: Special Techniques
Page(s): 275-276
Manual Date: 08/91

1. The sentence immediately preceding step 1 on page 275 was changed to read:

You can merge to the printer by adding a {PAGE OFF} code and a {PRINT} code to the end of a primary file.

2. Step 5 on page 275 and step 6 on page 276 were switched.

3. The screen shot on page 276 was changed so that the {PAGE OFF} code precedes the {PRINT} code.

4. The paragraph immediately following the screen shot was changed to read:

The {PAGE OFF} code makes sure that a hard page break is not inserted between letters. The {PRINT} code tells WordPerfect to send the merged letter to the printer and clear the screen (memory). (#2,026)

Lesson 26: Characters and
Keyboards
Page(s): 293
Manual Date: 06/91

Step 1 now says:

Press **C**ompose (Ctrl-2).

Step 2 now says:

Type an asterisk (*), then type a period (.). (#1,354)

Lesson 28: Envelopes and Labels
Page(s): 327
Manual Date: 12/90

2nd paragraph-wording changed to exclude advance codes in document initial codes. The 1st line of the 2nd paragraph under the Creating a Primary file heading now says:

When you place formatting codes like paper size/type and margins in a primary file, those codes get merged to each record. (#71)

Lesson 28: Envelopes and Labels
Page(s): 334
Manual Date: 12/90

Information on this page is as follows:

Enter **labels** to begin the macro.

A list of Label Page/Size definitions is displayed. Notice that the first item on the list is similar to the labels definition you created earlier in this lesson.

A 2/3" x 3 7/16" label is the right size for file folders.

Use the arrow keys to move the cursor to the 2/3" x 3 7/16" option (5266 Avery), mark the selection with an asterisk (*), then press **Enter**.

A "Set-up Marked Labels? **Yes (No)**" message is displayed.

Select **Yes**.

The macro pauses for you to set the location for your printer.

Select **Manual (3)** to indicate that you will manually feed the label sheets into your printer.

The macro pauses to ask if you want a prompt to load. This is generally a good idea when manually feeding labels into the printer.

Select **Yes**.

You are returned to the list of definitions. You could create another definition at this time if you needed to, but for the purposes of this lesson we will quit here.

Press **Exit (2)** to terminate the macro and return to the normal editing screen.

If you are running WordPerfect from two disk drives, replace the Macros/Keyboards diskette in drive B with the Learning diskette before continuing the lesson.

Press **Format (Shift-F8)**, select **Page (2)**, then select **Paper Size/Type (7)**.

Select **Page** from the **Layout** menu, then select **Paper Size/Type**.

Notice that the new labels definition appears on the list of paper definitions, and is ready to be included in the document initial codes of a primary file.

Now that you have learned how to create paper definitions, you will probably want to create definitions for any envelopes, labels, or other forms that you use on your own printer.

Delete the definitions you created for this lesson. Use this lesson and the appropriate sections in the WordPerfect Reference Manual as a guide to create the definitions you need for your own situation.

Press **Exit** twice to return to the editing screen. (#1,640)

Lesson 29: Equations
Page(s): 340
Manual Date: 12/90

In the fifth line under the Printing an Equation heading, the "you" was changed to "your". (#371)

Lesson 29: Equations
Page(s): 341
Manual Date: 12/90

New equation. We use a superscript i instead of a subscript i on the second line of the equation. (#372)

Lesson 29: Equations
Page(s): 344
Manual Date: 12/90

The equation in this lesson was incorrectly copied from the PlanPerfect manual. The correct equation needs a superscript i in the bottom line of the equation, not a subscript i . Therefore, every page in this lesson that used this equation now has the correct equation. Also, the instructions in several places have been changed to account for the new equation. So, on this page,

The bottom "A" pointer was removed from the equation, the new equation is used, the italic note under step 5 now says SUP instead of SUB, step 7 now says SUP instead of SUB. (#372)

Lesson 29: Equations
Page(s): 345
Manual Date: 12/90

New screen. We use a superscript i instead of subscript. (#372)

10 Press **Left Arrow** () four times to move the butterfly to the upper left corner of the box. (#374)

Lesson 33: Styles
Page(s): 407
Manual Date: 08/91

Steps 11 and 12 under "Editing the Headings Style" were reversed. (#2,064)

Lesson 33: Styles
Page(s): 407
Manual Date: 12/90

Italic paragraph under step 2 now says:

If you copied the LIBRARY.STY file during installation, or have entered a Style Library filename with the Setup key, then several styles will appear in the list. You need to delete these styles before continuing the lesson by selecting Delete (5) then Definition Only (3) until all the styles have been removed from the list. (#1,643)

Lesson 34: Tables - Part I
Page(s): 426
Manual Date: 12/90

Lesson 34: Tables - Part I
Page(s): 444
Manual Date: 12/90

First paragraph under screen now says:

The subtotal function is displayed on the status line, and once you move your cursor, an Align Char message lets you know that the total will be aligned on the decimal character. (#377)

Lesson 35: Tables - Part II
Page(s): 444
Manual Date: 08/91

Steps 7, 8, and 9 were deleted from the "Moving a Column" section on page 444. In addition, the sentence after the section was changed to read: The first row has become one cell again. (#1,748)

Lesson 35: Tables - Part II
Page(s): 449
Manual Date: 08/91

The sentence after step 12 was changed to read "Both the column widths and the width of the entire table are narrower. Notice that the Totals title has disappeared." (#379)

Lesson 35: Tables - Part II
Page(s): 463
Manual Date: 12/90

The word "uses" was changed to "use". (#205)
