Sophie's Planet #5: Chapter 7 (New York City) & Chapter 8 (Netherlands)

5 May 2020

James Hansen

Post-doc study at NASA in New York and at Leiden in the Netherlands produced tools for my toolbox, as needed to help interpret light scattering in the atmospheres of Earth and other planets, and in other ways it was even more fruitful ([Chapters 7 & 8](#)).

I opened a Twitter account @DrJamesEHansen, (<https://twitter.com/drjamesehansen>), but will minimize interactions until the book is finished.
