PARTICIPANT SELECTION

Hello. My name is _____, and I am working on a project with a student from the Department of Political Science at Columbia University in the United States. I am not a representative of the government, or of any political party. We are doing a study of the ways that Ugandan citizens get information and think about politics. The information we collect will help us better understand how African voters make decisions in multi-party systems.

We are doing this survey here in _____, and every Ugandan citizen who lives here has an equal chance of being included in this study. Your household was chosen at random. We would like to choose one person in your house to speak with. Would you please help me in the process to select someone?

If the person consents, proceed. If the person does not agree, thank them for their time, and leave the household.

Could you please give me the first names of all people who are present here right now, including you? I only wish to know the names of the people who you believe are at least eighteen years old, are citizens of Uganda, and who speak either English or Luganda. Please tell me both men and women.

If two people have same first name, ask for an additional piece of information for differentiation.

Select the appropriate number of numbered cards. Place the cards face down on a surface, so that the numbers aren't visible.

Could you please choose one of the cards. The person whose number matches the number on the card will be the person I will ask to interview.

After person selects: The person who I should speak with is _____. Can I speak with this person now?

If the person is not the same person who selected the cards, go to Part A now.

If the person selected is the same person who selected the cards, read the following:

You have selected yourself. If you participate in our survey and answer our questions, I will pay you 5,000 Ugandan shillings for your time. Are you willing to proceed? [If YES, go to Part B.]

PART A

Hello. My name is _____, and I am working on a project with a student from the Department of Political Science at Columbia University in New York. I am not a representative of the government, or of any political party. We are doing a study of the ways that Ugandan citizens get information and think about politics.

We are doing this survey here in _____, and every Ugandan citizen who lives here has an equal chance of being included in this study. Your household was chosen at random. We would like to interview one person in your household, and your name was chosen by chance. We will pay you 6,000 Ugandan shillings if you participate.

PART B

First, are you a citizen of Uganda?

YES *Proceed to part C.*

NO *Ask the respondent to choose from one of the remaining cards in the deck to select another possible subject. If the person has not yet heard Part A, read Part A. If he or she has, read Part B.*

If all the cards have been drawn, yet no potential respondent has been chosen, thank the individuals for their time and leave the domicile.

PART C

Are you at least 18 years old?

YES *Proceed to Part D.*

NO *Ask the respondent to choose from one of the remaining cards in the deck to select another possible subject. If the person has not yet heard Part A, read Part A. If he or she has, read Part B.*

If all the cards have been drawn, yet no potential respondent has been chosen, thank the individuals for their time and leave the domicile.

PART D

ORAL CONSENT

I am going to give you a form that explains the procedures of the survey. I will read you everything on this form.

[Hand consent form to participant.]

After I read you the information on the form, if you give your consent to participate, I will ask you to sign the form and a copy of it. One of the copies will be for you to keep.

The form says the following: “If you participate, all of the information that you give will be kept confidential. Your responses will be included with those of about 350 others we will interview. It will be impossible for others to identify you from what you say; therefore, you should feel free to tell us what you think.

This interview will take about 40 minutes. I will ask questions about your thoughts on some political issues. Participating in this interview is voluntary, and you may refuse to participate, or discontinue your participation at any time. If you complete the questions we ask during the interview, we will compensate you 5,000 Uganda shillings for your time.”

Would you be willing and able to participate in this interview?

NO: *Thank him/her for his/her time, and leave the household. Make appropriate notation on cover sheet.*

YES: *Complete the following. Ask the individual his/her name, then ask for his/her mark on both copies of the consent form. Give one copy to the participant. Then, fill out the following.*

4. One issue that people have been talking a lot about here is the use of forest land for agriculture. For example, last year the government announced a plan to transfer much of Mabira Forest, in Mukono District, which borders your district, to an Indian company for use to produce sugar. Some people felt that the use of the forest land for agriculture would be good for Uganda, since it would produce jobs and wealth for the country, especially since land for agriculture is very scarce. Others thought that it was wrong to clear forest land, which is home to many endangered animals, especially for a foreign company. Please tell me which of the following statements you agree with the most. A: Selling and clearing protected forests is a good idea, because it would produce jobs and wealth for Ugandans. B: It is important for Uganda to protect its unique forests, and especially not to sell them to foreign companies.

ELECTION VIGNETTES

Please wait a few moments while I prepare the rest of the survey.

Do the following:

1) Shuffle the index cards and randomly select one. If the selected card corresponds to the individual's ethnic group, shuffle the cards and choose another. Mark the selection here.

1	Acholi
2	Alur
3	Baganda
4	Bakhonzo
5	Bakiga
6	Banyakole
7	Banyoro
8	Batoro
9	Langi
10	Lugbara

2) Fill in all blanks for all vignettes with the blue shading with the name of the participant's ethnic group. Fill in all blanks for all vignettes with the pink shading with the name of the ethnic group corresponding with rolled dice number.

3) For Elections 2 and 9, do the following:

Look at the respondent's answer to question 3

If the respondent is a Movement supporter, fill in the boxed area in the vignette in the left column with FDC and the boxed area in the vignette in the column on the right with Movement.

If the respondent supports any party other than the Movement, fill in the boxed area in the vignette the left column with Movement and the boxed area in the vignette in the right column with the preferred party of the candidate.

If the respondent does not name any political party, cross out Elections 2 and 9.

4) For Elections 6 and 13, do the following:

Look at the respondent's answer to question 4

If the respondent answered A, you will read vignettes 6A and 13A. Therefore, cross out vignettes 6B and 13B.

If the respondent answered B, you will read vignettes 6B and 13B. Therefore, cross out vignettes 6A and 13A.

If the respondent did not have an opinion, cross out Elections 6 and 13 in their entirety.

Thank you for waiting patiently. We can now begin the survey. As you know, some of the most important elections in Uganda are for local government positions. One of these positions is that of LC3 chairperson. I am going to read you information about fifteen different imaginary races between two people who are campaigning for the office of LC3 chairperson. Imagine that these people are running to be the chairperson in your LC3. Please listen to the information closely. After I have told you about the candidates, I will ask you to tell me which of the candidates you would like to see win that election. Although these races and candidates are imaginary, please do your best to make a decision as to which candidate you prefer, and thus which one you would vote for.

ELECTION ONE

In the first election, two people are running to be LC3 chairperson.

Candidate A has lived in this LC3 since birth. He is a member of the _____ ethnic group.	Candidate B was born in this LC3 and has lived here ever since. He is a member of the _____ ethnic group.

40. I am going to read you a statement, and then four possible responses. Please listen to the statement, and then tell me which of the four responses you agree with most. Imagine that your daughter wanted to marry someone from an ethnic group different than your own. How would you feel? *[Read the options aloud.]*

A I would oppose the marriage and try to prevent it. People should only marry within their own group.	B I would not be happy with her marriage, because people should only marry within their own group, but I would not try to prevent it.	C I would be happy with her marriage, because it is a sign of progress when people from different groups marry.	D I would take no position, since I do not think I should have a say in who my daughter marries.	Don't Know

Thank you very much. The goal of this research project is to better understand how access to information about political candidates affects African voters' attitudes towards members of different ethnic groups and towards those candidates who distribute goods during campaign periods. Again, this project is being carried out by a student of the Political Science Department at Columbia University, in the United States. Your responses will be very helpful, and we thank you for your time. *Give envelope with payment to subject.*
