

DeCarlo, L. T. (2012). On a signal detection approach to m -alternative forced choice with bias, with maximum likelihood and Bayesian approaches to estimation. *Journal of Mathematical Psychology*, 56, 196-207.

Typo corrections:

On p. 199, just below the second equation, “fewer” should be “more” and the sentence should read:

“Thus, there are more parameters than observations and the model is underidentified.”

In Table 3 on p. 203, “Eq. (6)” should be replaced by “Eq. (8)” throughout.
