

CURRICULUM VITAE
LATHA VENKATARAMAN

Columbia University
Department of Applied Physics
Department of Chemistry
Email: lv2117@columbia.edu
www.venkataramangroup.org

201 S.W. Mudd, MC4701
500 W 120th Street
New York, NY 10027
Phone: 212-854-1786

EDUCATION

Ph.D. Physics, Harvard University	1999
M.S. Physics, Harvard University	1997
B.S. Physics, Massachusetts Institute of Technology	1993
Doctoral Thesis: Electronic Properties of One Dimensional Conductors	1999
Advisor: Prof. Charles M. Lieber	

PROFESSIONAL EMPLOYMENT

Professor	Department of Applied Physics and Applied Mathematics	2016
Professor	Department of Chemistry	2016
Associate Professor Tenured	Department of Applied Physics and Applied Mathematics, Columbia University	2012
Associate Professor Not tenured	Department of Applied Physics and Applied Mathematics, Columbia University	2011
Assistant Professor	Department of Applied Physics and Applied Mathematics, Columbia University	2007
Research Scientist	Department of Physics and Center for Electron Transport in Molecular Nanostructures, Columbia University	2003
Research Scientist	Vytran Corporation	1999

AWARDS AND PATENTS

Single-Molecule Diodes with High On/Off Ratios Through Environmental Control	2016
Fellow, American Physical Society	2015
Alfred P. Sloan Research Fellowship	2011
Kim Award for Faculty Involvement, Columbia University	2010
Packard Fellowship in Science and Engineering	2008
NSF Career	2008
Professional Schools Research Fellowship Award, Columbia University	2007
Method of Splicing Specialty Fibers with Low Loss, Vytran Corporation	2004
White Prize for Excellence in Teaching, Harvard University	1999
Applied Physics Fellowship, Harvard University	1993

TEACHING

Spring: Applied Electromagnetism – for Junior Applied Physics Majors
Fall: Quantum Physics of Matter – for Seniors and 1st year Graduate Students

LIST OF PUBLICATIONS

Sponsored Students/Post-docs are underlined, corresponding authors have *

- [1] M. H. Garner, H. Li, Y. Chen, T. A. Su, Z. Shangguan, D. W. Paley, T. Liu, F. Ng, H. Li, S. Xiao*, C. Nuckolls*, **L. Venkataraman***, G. C. Solomon*, *Comprehensive suppression of single-molecule conductance using destructive σ -interference*, **Nature**, Accepted (2018).
- [2] A. Magyarkuti, O. Adak, A. Halbritter*, **L. Venkataraman***, *Electronic and Mechanical Characteristics of Stacked Dimer Molecular Junctions*, **Nanoscale** ASAP (2018)
- [3] J. Brisendine, S. Refaely-Abramson, Z. F. Liu, J. Cui, F. Ng, J. B. Neaton*, R. Koder*, **L. Venkataraman***, *Probing Charge Transport through Peptide Bonds*, **J. Phys. Chem. Lett.**, 9, 763–767 (2018).
- [4] G. Lovat, B. Choi, D.W. Paley, M.L. Steigerwald, **L. Venkataraman***, X. Roy*, *Room-temperature current blockade in atomically defined single-cluster junctions*, **Nature Nanotechnology**, 12, 1050–1054, (2017)
- [5] X. Yin, Y. Zang, L. Zhu, J. Z. Low, Z.F. Liu, J. Cui, J. B. Neaton*, **L. Venkataraman***, L. M. Campos*, *A Reversible Single-Molecule Switch based on Activated Antiaromaticity*, **Science Advances**, 3,10, eaao2615 (2017)
- [6] Y. Zang, A. Pinkard, Z-F. Liu, J.B. Neaton, M. L. Steigerwald, X. Roy*, **L. Venkataraman***, *Electronically transparent Au-N bonds for molecular junctions*, **JACS**, 139 (42), pp 14845–14848 (2017).

INVITED PRESENTATIONS

1. Chemistry Colloquium, Binghamton University, September 2018
2. Chemistry Colloquium, University of Southern California, April 2018.
3. ACS March Meeting, Workshop organizer, New Orleans, March 2018.
4. Quantum Nanoscience Department Seminar, TU Delft, March 2018.
5. Villars Wilson Meloche Lectureship, University of Wisconsin, Madison, February 2018.
6. Binational Japanese-German Workshop Single-Molecule Science and Technology, Konstanz, December 2017.
7. Quantum Conductance Workshop, City University of New York, November 2017
8. Keynote speaker, FisMat 2017, Trieste, Italy, October 2017
9. Quantum Transport in Nanoscale Molecular Systems, Telluride, Conference Organizer, July 2017
10. Xiamen University PCOSS Lecture, July 2017
11. Wuhan University of Technology, Invited Seminar, July 2017
12. Institute of Chemistry, Chinese Academy of Sciences, Molecular Science Lecture, July 2017
13. Center for Nanoscale Materials User Meeting, Argonne National Labs, Plenary Speaker, May 2017
14. UCSD Chemistry Seminar, May 2017.
15. Eastern Regional Photosynthesis Conference, Keynote Speaker, Woodshole, MA, April 2017.
16. Many paths to interference: a journey between quantum dots and single molecule junctions, Dresden, Germany, April 2017.
17. George Washington University Chemistry Seminar, March 2017.
18. Frontiers in Physical Chemistry Symposium, Caltech, February 2017.
19. Indian Institute of Science Chemistry Seminar, January 2017.
20. MRS Redox Activity on the Molecular Level Fundamental Studies and Applications Symposium, November 2016.

21. Semiconductor Research Corporation GRC Technology Transfer e-Workshop, November 2016.
22. Physical Chemistry Seminar, University of Rochester, New York, November 2016
23. Physical Chemistry Seminar, Colorado University, Boulder, October 2016
24. Workshop on Dynamical Systems, Milan September 2016
25. Conductivity & Magnetism in Molecular Materials Gordon Conference, Mount Holyoke, MA, August 2016
26. Chemistry Seminar, Ben Gurion University, Israel, July 2016
27. Chemistry Colloquium, Weizmann Institute, Israel, July 2016
28. COPE Seminar at Georgia Tech, April 2016.
29. University of California, Berkeley, Physical Chemistry Seminar, April 2016.
30. 10th Anniversary Celebration of the Molecular Foundry at Berkeley, Invited Talk, March 2016.
31. ACS March Meeting, Invited Talk, San Diego, March 2016.
32. ICTS Public Lecture, TIFR Bangalore, January 2016.
33. NSF Colloquium at TIFR, Mumbai, January 2016.
34. ISACS18: Challenges in Organic Materials and Supramolecular Chemistry, Plenary Talk, Bangalore, India, November 2015.
35. Colloquium, Center for Nanoscale Materials, Argonne National Labs, November 2015
36. ESPMI-VIII, Invited Talk, Tuscon, Arizona, October 2015.
37. Regensberg, Invited Talk, Germany, September 2015.
38. International Conference on Charge Transfer and Transport at the Nanoscale, Invited Talk, Santiago de Compostela, Spain. September 2015.
39. Quantum Transport in Nanoscale Molecular Systems, Telluride, Conference Organizer, July 2015.
40. Quantum Interference in Molecular Junctions, Workshop, Copenhagen, July 2015.
41. Tata Institute of Fundamental Research, Seminar, June 2015
42. The Batsheva de Rothschild Seminar on Molecular Electronics 2015, Israel, Invited Talk, June 2015.
43. University College London, Invited talk, "Theory meets experiment: molecular nanoscience and applications", June 2015.
44. Chemistry Department Seminar, "Chemistry and Physics of Single-Molecule Circuits", University of British Columbia, March 2015.
45. American Physical Society March Meeting, "Conductance and Thermopower in Thiophene and Oxidized Thiophene Single-Molecule Junctions", Invited Talk, March 2015.
46. Chemistry Department Colloquium, "Chemistry and Physics of Single-Molecule Circuits", Columbia University, February 2015.
47. Laboratory of Surface Modification seminar, "Chemistry and Physics of Single-Molecule Circuits", Rutgers University, January 2015.
48. International Workshop "Controlled Charge and Heat Transport at the Molecular Scale", Invited Talk, Konstanz, Germany.
49. Molecular Machines and Devices: Beilstein Nanotechnology Symposium, Invited Talk, September 2014.
50. From Carbon-Rich Molecules to Carbon-Based Materials Conference, Morocco, Invited Talk, September 2014 (declined).

51. Faraday Discussions: Organics, Photonics & Electronics, Glasgow, Invited Talk, September 2014.
52. Seminar at the Jawaharlal Nehru Centre for Advanced Scientific Research in Bangalore, India, August 2014.
53. ICN+T 2014, Vail Colorado, Invited Talk, July 2014. "Chemistry and Physics at the Single Molecule Level".
54. Workshop: Surfaces, Interfaces and Functionalization Processes in Organic Compounds and Applications, Trieste, Italy, Invited Talk, June 2014. "Chemistry and Physics at the Single Molecule Level".
55. Electronic Processes in Organic Materials Gordon Conference, Invited Talk, May 2014. "Controlling Electron Transport in Single-Molecule Junctions".
56. Polymer/Materials Seminar, University of North Carolina, Chapel Hill, February 2014. "Chemistry and Physics at the Single Molecule Level".
57. Tokyo Institute of Technology, Seminar, Tokyo, Japan. November 2013. "Mechanics of Single-Molecule Junctions".
58. International School and Symposium on Molecular Materials, Tokyo, Japan, November 2013. "Structure and Electronics of Single Molecule Circuits".
59. Modeling Single-Molecule Junctions: Novel Spectroscopies and Control, Berlin October 2013, "Mechanics of Single-Molecule Junctions".
60. NANOTECHNOLOGY AND SUSTAINABILITY: New Research in Italy and the United States, October 2013, "Probing van der Waals Forces at the Single-Molecule Level"
61. Packard Fellows Meeting, Denver, Colorado, September 2013 "Probing Electronics and Mechanics One Molecule at a Time"
62. Yale University, Material Science Seminar, September 2013, "Electronics and Mechanics of Single-Molecule Circuits"
63. Quantum Transport in Nanoscale Molecular Systems, Telluride, July 2013, "Electronics of Single-Molecule Circuits"
64. Building blocks for carbon-based electronics: From molecules to nanotubes, Regensburg, April 2013, "Electronics and Structure of Single-Molecule Circuits"
65. American Physical Society March Meeting, "Probing van der Waals Forces at the Single-Molecule Level", March 2013
66. Princeton University Physical Chemistry Seminar, "Mechanics and Electronics at the Single-Molecule Level", March 2013
67. 4th International Symposium on Trends in Nanoscience, "Mechanics and Electronics at the Single-Molecule Level" Germany, February 2013
68. University of Konstanz, Physics Department Seminar, "Electronics of Single Molecule Circuits", Konstanz, February 2013
69. ElecMol'12, Grenoble, "Structure and Electronics of Single-Molecule Circuits", France, December 2012
70. Gordon Conference on Single Molecule Approaches to Biology, "Measuring Bond Rupture Forces at the Single-Molecule Level", July 2012
71. Molecular Electronics International Meeting, "Probing the Conductance Superposition Law in Single Molecule Circuits", Jerusalem, July 2012
72. NC-AFM Conference, "Conductance and force measurements across single-molecule junctions", Czech Republic, July 2012

73. Lorentz Workshop on Future Directions of Molecular Electronics, “Conductance and force measurements across single-molecule junctions”, June 2012
74. Quantum Transport in Molecular Nanostructures, “Electronics of Single Molecule Circuits”, Dublin, May 2012
75. University of Delaware, Physics Department, “Electronics and Mechanics of Single Molecule Circuits”, April 2012
76. New York University Nanoscience Discussion Group, “Feeling the Invisible: Quantum Interference in Single Molecule Circuits”, New York, April 2012
77. Seminar at Denmark Technical University “Electronics and Mechanics of Single Molecule Circuits”, Copenhagen, February 2012
78. Chemistry Department Seminar at the University of Copenhagen “Electronics and Mechanics of Single Molecule Circuits”, Copenhagen, February 2012
79. AVS 58th Annual International Symposium and Exhibition Nashville, TN, October 2011
80. European Theoretical Spectroscopy Facility (ETSF), Torino, Italy, September 2011
81. 11th European Conference of Molecular Electronics (ECME 2011), Barcelona, September 2011.
82. Physical Organic Chemistry Gordon Research Conference, June 2011
83. Pan American Advanced Studies Institute, Cartagena, Colombia, June 2011
84. Marquette University, Chemistry Colloquium, March 2011
85. Indian Institute of Science, Chemistry Colloquium, October 2010
86. University of Pennsylvania, Physics Colloquium, October 2010
87. Massachusetts Institute of Technology, Physical Chemistry Seminar, October 2010
88. Yale University Applied Physics Seminar, September 2010
89. Spring College on Computational Nanoscience, Trieste, Italy, May 2010
90. The Russell Berrie Nanotechnology Institute at Technion, Winter School, Israel Feb 2010
91. New York University Nanoscience Discussion Group, New York, Feb 2010
92. Institute for Nanotechnology, Karlsruhe, Germany, Jan 2010
93. International Conference on Molecular Electronics, Emmetten, Switzerland, Jan 2010
94. Tata Institute of Fundamental Research, Mumbai, India, Dec 2009
95. Kavli Institute for Theoretical Physics at the University of California, Santa Barbara, Nov 2009
96. Packard Fellows meeting, September 2009
97. Invited Talk at the Contractor's Meeting organized by the Basic Energy Sciences Division of the U.S. Department of Energy, June 2009
98. Physics Colloquium, Rutgers University, April 2009
99. Invited talk at MRS Symposium B, April 2009
100. Invited talk at MRS Symposium Z, April 2009
101. Colloquium, Physical Review, March 2009
102. IWEPNM2009, Kirchberg/Tirol, Austria, March 2009 (declined)
103. Physics@FOM, Veldhoven, Netherlands, January 2009
104. Emergent Nanoscience Workshop, Columbia University, December 2008
105. University of Massachusetts, Amherst, November 2008
106. Department of Applied Physics, Columbia University, October 2008
107. Yeshiva University Physics Colloquium, September 2008
108. Gordon Conference, Electron Donor-Acceptor Interactions, August 2008
109. French – American Young Engineering Scientists Symposium, July 2008

110. IMEC, Belgium, July 2008
111. ESPMI IV Workshop, Princeton University, June 2008
112. Fundamentals of Electronic Nanosystems, St. Petersburg, June 2008 (declined)
113. HOT NANO TOPICS 2008, Slovenia, May 2008 (declined)
114. NSLS-CFN Workshop, Brookhaven National Labs, May 2008
115. VSLI-TSA Conference, Taiwan, April 2008
116. Chemistry Department, City College of New York, March 2008.
117. Chemistry Department, University of Maryland, November 2007.
118. Molecular Foundry, Lawrence Berkeley National Labs, October 2007.
119. Applied Physics, Columbia University, September 2007.
120. ELETTRA Synchrotron Light Laboratory, Trieste, Italy, July 2007.
121. Brookhaven National Labs, Undergraduate Outreach, June 2007
122. Building Electronic Function into Nanoscale Molecular Architectures, NSF-sponsored Workshop, June 2007
123. New York Academy of Sciences, May 2007
124. Chemistry Department, Princeton University, March 2007
125. American Physical Society March Meeting, March 2007
126. Barnard College Chemistry Department, February 2007
127. Physics Department Colloquium, University of Toronto, February 2007
128. Condensed Matter Seminar, New York University Department of Physics, February 2007
129. Mesilla Chemistry Workshop 'Electron Transfer and Molecular Devices', February 2007
130. Department of Applied Physics, Columbia University, February 2007
131. Department of Applied and Engineering Physics, Cornell University, January 2007
132. Brookhaven National Laboratories, January 2007
133. Canadian Institute of Advanced Research meeting, November 2006
134. Nanoscale Functional Materials, Cornell University, October 2006
135. Duke University, October 2006
136. 4th Annual Molecular Conduction and Sensor Workshop, July 2006
137. Chemistry and Physics of Nanostructure Fabrication Gordon Research Conference, July 2006
138. NNIN Synergy conference, Harvard University, May 2006
