No new text problems. Work on Problem Set #3 and the previously assigned text problems.

Other announcements and useful information:
1. The first exam is coming up quickly. It is scheduled for Tuesday, February 15 during the usual class period. The exam will cover material through next week’s lectures. I anticipate that we will get through our discussion of Chapter 3.

2. Exam #1 from last spring’s class will be posted on the course website by early next week. Use it for practice problems and also to get a general idea of what the first exam this year might look like.
