Code Review Checkpoint
due April 25

- This is for Internal Students only.
- This will be held on April 25, Thursday, in the COMET Lab.
- What is expected:
  - Overview of the written code
  - Print out of code with comments and description of functions and data flow and control diagrams
  - Demonstration of 75% of the working code
  - Groups should be able to demonstrate the major sub-systems they have implemented
- 5% of the grade is assigned for this checkpoint.
